

[STEMARTY PRESENTS:] THE BOMB GAME

Microsoft Power-Point is more than just a presentation slide shower.

So what is a BOMB game?

A BOMB game is an **interactive** trivia style game suitable for students of any level and grade! Excellent for review games to test student's comprehension.

TO PLAY:

Students are placed in teams of usually 4-6 and take turns to answer a question, receive points, and sometimes even earn bonus awards if they're lucky. If a team finds a BOMB in the game, they lose ALL their points!

*Please email me for templates, questions, and comments!

BOMB Games are run in Microsoft PowerPoint with any version.

BOMB Game templates are already finished and easy to use. They can be modified for any class and question type.

Fun, bright, colorful, and attention grabbing.

Great for large classes and multiple level learners

100% FREE to use and download
