

# Tech Expo 2021: Kumospace

## Overview:

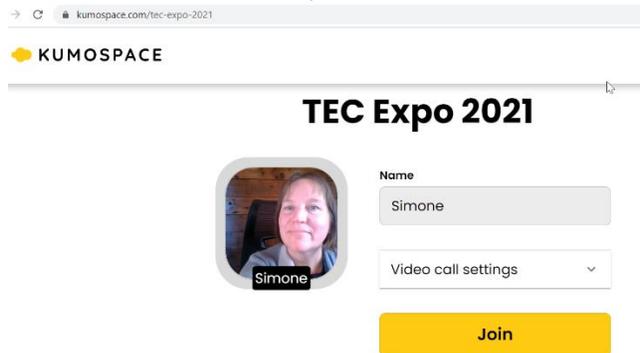

Kumospace is a unique platform that uses 'spatial audio' and allows users to virtually 'wander' around a room and gather with individuals or small groups for conversation. The spatial audio allows you to only hear those within the bubble that you have joined. As you explore a room, you may also find some additional interactivities (games, video, music).

## Join & Interact:

1. **Go to:** our Kumospace link (<https://www.kumospace.com/tec-expo-2021>)

1. Select "Continue without an account"

2. Enter our conference space

1. **Type a screen name** (could use first name, full name or nickname depending on your personal preference)

2. **Enable microphone and video** (follow on screen prompts). If needed, select the dropdown menu for "Video call settings".

3. **Click Join**

3. **Pick a room:**

- **Learn about ETS** – book workshops, see previous Tech expos, give feedback and more.
- **Hangout space** – Come explore the social kumospace. Many places to mingle, dance, play games, and talk to others about their experiences with technology, teaching, and learning.

#### 4. Get to know the space and controls

1. Zoom in and out of the space
2. View an embedded map of the entire room
3. Text Chat with participants
4. View & message participants list
5. You can adjust video or audio settings and exit room using the navigation menu at the bottom of your screen.
6. And don't forget to grab a beverage (click on the water cooler, bar cart or bevvie tray in the room). There may be other little interactivities place around the rooms for you to discover!

#### 6. Enjoy!

For those who prefer a video tour, here is one by David Schaub that gives you a 'feel' for Kumospace: <https://youtu.be/3bdlWNMI450>

A few notes about privacy:

Data for Kumospace is not housed on a Canadian server. In order to help protect your privacy, you are not required to Login or sign up to join our social networking events. Please simply bypass sign in by selecting "Continue without an account". If you do not sign in, then Kumospace may still collect IP address and location information. Please refer to the Kumospace privacy policies for more information about how your data is collected and used.
